Portfolio : saidalachgar.dev

Senior Frontend Web Developer with over 4+ years of experience in creating pixel-perfect, responsive, and accessible websites. Expert in transforming complex designs into high-performance applications. Skilled in frontend with backend knowledge, leading projects, and collaborating with international teams to deliver innovative solutions.

Professional Experience

Picaxel – *Senior Frontend Web Developer | 30+ Projects Delivered (January 2021 – Present)*

Notable Projects :

- **Dunforce** (2024): frontend development of an app for managing social housing data using React, applying SCRUM methodologies in a remote team environment.
- **Laboratoires de Biarritz** (2023): Customized a PrestaShop theme based on Figma designs, creating a unique shopping cart module and an entirely redesigned checkout process.
- **Agadir Oufella** (2023): Developed a multi-platform solution for a tourist site with WordPress for the website and React Native for the mobile app; incorporated GSAP for dynamic animations and provided full RTL support.
- **Tots** (2022): Built custom product pages for an e-commerce site specializing in bathroom accessories. Integrated Algolia for efficient search and implementing advanced SEO practices to maximize visibility.

SysGlad-hta – *Freelance Full-stack Developer (September 2022 – August 2023)*

- Developed a system for monitoring electricity production and distribution, featuring anomaly detection and performance analysis.
- Designed a robust database schema, migrated data from Excel to SQL, and integrated Angular with Symfony.
- Implemented API Platform and JWT authentication, BFS algorithm, and efficient caching strategies, while building interactive dashboards with Angular.

Otman Elhadeg Law Firm – *Full-stack Developer (October 2019 – November 2020)*

- Developed a data management system to streamline legal document management and enhance overall efficiency.
-
